

Want a toolbar break-away you can **count on**?!

Then count **1 2 3** with the **R-B™**

- 1** Its **stainless steel construction** means reliable operation and no requirements to “replace every 3 years.”
- 2** Its **pressure balanced design** means no stretched or damaged hoses regardless of tank pressure.
- 3** It **immediately and easily reconnects** so your valuable time is not wasted.
